CubelQ Announces the Availability of a new Cheque Scanner for Remote Deposit Capture Applications

[EN] Athens, GR, **March 31st, 2010** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, today announces the availability of **LS40**, a new cheque scanner.

The new **LS40**, manufacturer by **CTS Electronics**, is addressed to **Remote Deposit Capture (RDC)** applications as well as for small volume scanning at the bank teller. Designed to meet the needs of users with low volumes of documents to be processed, where is required to concentrate in a narrow space all the functionalities and keep them at hand by a simple and easy to use device. Quite operations, robustness, usability and ergonomics that, together with a stylish design, make **LS40** feel more than an entry level device.

Delivering top performance, with a very compact and functional design, USB 2.0 interface and a USB hub for additional peripherals, several options including an endorsement printer, badge – magnetic stripe reader, front personalization stamp, MICR reader, OCR and barcode recognition, at an affordable price is the perfect cheque scanning solution for **Remote Deposit Capture** and small teller applications.
