

News Release

CubelQ Announces that has Completed three new Information Security Projects in South East Europe

[EN] Athens, GR, July 26th, 2010 - CubelQ Limited, an IT company provider of software solutions and systems for financial, banking and corporate institutions, today announces that has completed three new Information Security Projects in South East Europe.

During the first two quarters of 2010, CubelQ has completed three (3) new information security Projects in South East Europe.

The first is an encryption, PIN verification and message authentication system that support an electronic transaction processing and payment gateway system.

The second is an encryption, PIN verification, PIN translation and message authentication system that support the operation of a mobile telephony e-vouchers distribution system.

The third is a digital signing and time stamping system that support the operation of an electronic invoicing system with projected capacity of 1,5 million e-invoices per month.

Each project was delivered for UAT in less than a month including installation, integration, configuration and training of the customers' employees.
