

## News Release

### CubelQ Announces the Completion of a New Cheque Book Issuance System – CBIS™ Project

[EN] Athens, GR, **September 21<sup>st</sup>, 2010** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, today announces the completion of a new **Cheque Book Issuance System – CBIS™** project.

The customer is a Greek private bank with headquarters in Athens, Greece and branches in Athens and selected locations around Greece. The bank is providing banking and financial services in the areas of private banking, enterprise banking, shipping and syndicate loans.

**Cheque Book Issuance System – CBIS™** is a comprehensive enterprise solution, comprised by specialized cheque book issuance machines, **CTS DIDOgraf**, and an a three-tier client/server software application, **Cheque Book Application Foundation - CBAF™**, with which a financial institution can manages the total production circle of cheque books, from a new cheque book application up to cheque book printing and delivery to designated locations. **CBIS™** can be installed in centralized, regional and local (branch) operational configurations.

Contemporary financial and banking institutions, by using **CBIS™**, have the following advantages:

- Efficient management and control of cheque book production.
- Cheque book full personalization even with the customers' logo.
- Speed and flexibility of cheques books printing.
- Cheque book instant issue and delivery (in local – branch operational configuration)
- Compliance with European and National cheques specifications (ECB & HBA).
- Differentiation from competitors and upgrade the Bank «image» in the market.
- Minimizing operating cost along with short return of investment.
- Do business efficiently, reliably and cost effectively by taking advantage of the latest state-of-the-art technology.
