

News Release

CubelQ Announces HID® DigitalPersona®

[EN] Athens, GR, **October 22nd, 2020** - **CubelQ Limited**, an IT company provider of software solutions and systems for financial, banking and corporate institutions, announces **HID's® DigitalPersona®**.

HID's® DigitalPersona® it is composite multi-factor authentication platform that transforms the way IT executives protect the integrity of the digital organization by going beyond two-factor and multi-factor authentication.

DigitalPersona® solution offers IT executives the ability to deploy the optimal set of authentication factors to provide users with a fast and secure Windows® Logon as well as VPN access, web, mobile, various in-house and cloud applications authentication.

DigitalPersona® it is a full featured but affordable enterprise authentication solution which can integrate with mobile and various in-house and cloud applications and can use not only the typical authentication OTP tokens a variety of authentication devices including all major types of biometrics devices.

HID's® DigitalPersona® Features:

- Out of the box integration with Windows® logon.
- Full scalability across on premise and cloud services.
- Secure and convenient authentication application overlay.
- Multiple integration options ensure that all applications are covered.
- Comprehensive API management enables tightly integrated implementation.
- Allows customers to quickly provision apps without modifying source code.
- Includes all Authentication Factors including contextual and risk-based.
- Up to 3-FA, any combination.
- Integration to SAML enabled applications.
- SSO application portal on both Windows® and Mobile platforms.
- Customers' option to remove all passwords.

In addition to the traditional set of authentication factors, **what you have**, **what you are** and **what you know**, **DigitalPersona®** offers authentication for the contextual risk factors of time, velocity, location and behavior. The latter cover **what you do**, **where you are** and **when you act**, allowing you to precisely match your Organization's risk exposure to the optimal security position.

Composite Authentication Factors:

- **What you know:** Windows® password, PIN, Recovery Questions
- **Who you are:** Fingerprint, Face Authentication, Palm Authentication
- **What you have:** OTP, Contactless cards (HID iCLASS Memory, MIFARE Classic and Mini Memory), Seos, Smart cards, Proximity cards (HID 125 kHz), Bluetooth devices, Hardware or Software Tokens. USB Tokens (PKCS11 and CSP-compatible), FIDO U2F Key, Apple Watch, FIDO2 (e.g. HID Crescendo Key and C2300 cards)
- **What you do:** Keystroke Biometric
- **Where you are:** GPS Location, IP address, Integrated Windows Authentication (IWA)
- **When you act:** Time frame
